- (C) Scope. The investment rule applies to all financial assets of the college, including state and federal funds held by the college. - (D) Standard of prudence. The standard of prudence to be applied by the treasurer shall be the industry prudent-person standard, which states, "investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

Acting in accordance with the investment rule or any other appropriate written procedures pertaining to the administration and management of the college investment portfolio while exercising due diligence, shall relieve the treasurer of personal responsibility for an individual security's credit risk or market price changes, provided deviations from expectations are reported to the board of trustees in a timely fashion and appropriate action is taken to respond to adverse developments.

 - (3) Return on investment. The college's investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account this investment rule and the cash flow characteristics of the portfolio.
 - (4) Minimization of cost of services. The fourth objective is to minimize transaction costs. Relationships with securities dealers, investment bankers, and other entities providing investment services will be carefully managed to secure high quality services while simultaneously minimizing costs.
- (F) Ethics and conflict of interest.
